

Willow Class

Summer 2

Hello!

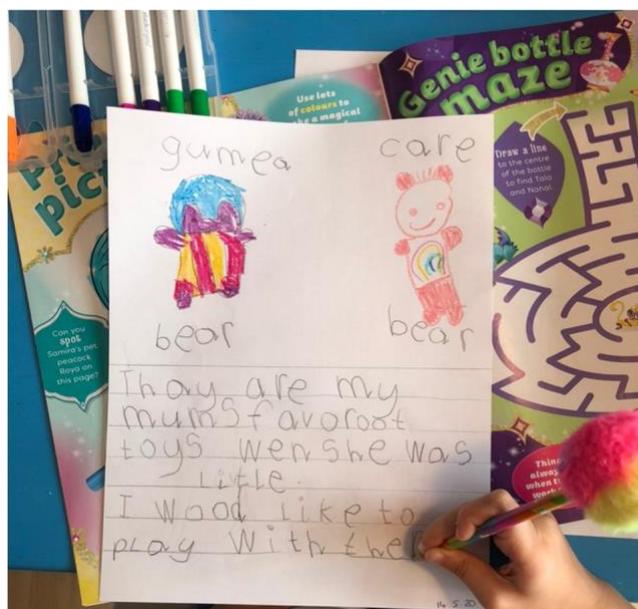

Welcome back to Summer 2. Another change for us all and hopefully encouraging in the fact that we are beginning to reintegrate again. As we look forward to welcoming some children back to school we will also continue to support those of you still working at home. I would like to say a huge thank you for all of the super work that you are completing at home and the communication. I have thoroughly enjoyed chatting with lots of the children on 'Zoom' and receiving updates on their progress.

PE

Who is taking part in REAL PE at home? There are so many opportunities for keeping active, maybe you might even take up a new sport or hobby over the summer!

Learning QUEST

Thank you to those that joined in with our learning quest last term, there were some super activities happening.

Our next learning quest is called 'Is nature art?' where we will be exploring how we can see art in nature and how nature can be used as a medium for art.

During this quest the children will be encouraged to create their own art, learn to consider how they feel about their creations and how they could improve their own work. They will have the opportunity to learn new vocabulary and explore natural and man-made materials. It is important that children learn about famous artists, therefore we have included some research and work around the work of 'Andy Goldsworthy'. We hope that the children have fun learning about art in nature, while developing new skills and knowledge. Don't forget to send pictures of our mini artists at work!

CARE-BUILD-FOLLOW-THINK

Love Reading

Remember to keep up your daily reading, listening to stories, making up stories and generally enjoying books. There are some great online story sessions available too.

Literacy

In literacy we plan to continue using the 'Talk for Writing' booklets for as long as they are available. This is a super resource which supports the children's learning in a very similar way to how they would be learning in school.

Encouraging children's writing attempts in any way that engages them will ensure the best progress.

Some great examples have been, hiding secret messages, writing notes to family and friends, recipes and much more!

Numeracy

We hope that you are finding the White Rose Maths learning beneficial, we will be continuing with these fun, exciting ways to learn and practice maths concepts and skills during the next term.

Remember maths is all around so take advantage of all of the super everyday opportunities to include maths, language of size, weighing, recognising coins, counting, recognising shapes and patterns...the list goes on.

If you would like any advice on how to support your child's next steps in maths then please get in touch.

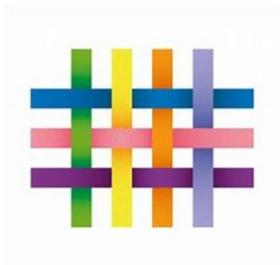

Please follow @CottinghamCofE for daily news and updates regarding the super children at Cottingham CofE Primary School. It takes just a few minutes to log in and sign up.

Ruth Miskin Phonics sessions continue on You Tube, there is a new plan available beginning 1st June. https://www.ruthmiskin.com/media/filer_public/16/9e/169efce9-a69d-409a-a09e-40f2d9adfd7c/final_schedule_june_2020_1.pdf

Worship

Worship planners are available on home learning planners. Perhaps you can create a calm area for reflection this term or create some prayer beads. Tweet pictures of your very own worship times.

Other Notices

Please continue to add home learning to Tapestry, although staff will now be in school, we will try to have look and keep up to date where possible. Please be aware that for this reason responses from staff will be significantly lower.
